Commissioner for Patents

This application contains sequence disclosures that are encompassed by the definitions for nucleotide and/or amino acid sequences set forth in 37 CFR 1.821(a)(1) & (a)(2). However, this application fails to comply with the requirements of 37 CFR 1.821 through 1.825 for the reason(s) set forth below or on the attached Notice To Comply With Requirements For Patent Applications Containing Nucleotide Sequence And/Or Amino Acid Sequence Disclosures. Claim 84 recites a linear peptide having the "amino acid sequence including four amino acids defined by formula P2P1-P1'P2', wherein: P2 is N, P1 is F, P1' is E P2' is A..."(i.e., NFEA). Similarly, claim 110 recites a linear peptide that "comprises a sequence of amino acids defined by the formula P3P2P1-P1'P2'P3', wherein P3 is V, P2 is N, P1 is F, P1' is E, P2' is A and P3' is E"(i.e., VNFEAE). These sequences must be referred to by sequence identifier. However, the sequence listing does not contain the claimed sequences. Compliance with the sequence rules is required in order to conduct a search of the peptide sequence found in the instant claims with that of the USPTO sequence database.

Applicant is given ONE MONTH, or THIRTY DAYS, whichever is longer, from the mailing date of this letter within which to comply with the sequence rules, 37 CFR 1.821 - 1.825. Failure to comply with these requirements will result in ABANDONMENT of the application under 37 CFR 1.821(g). Extensions of time may be obtained by filing a petition accompanied by the extension fee under the provisions of 37 CFR 1.136(a). In no case may an applicant extend the period for reply beyond the SIX MONTH statutory period. Direct the reply to the undersigned. Applicant is requested to return a copy of the attached Notice to Comply with the reply. The addresses below are effective 5 June 2004. Please direct all replies to the United States Patent and Trademark Office via one (1) of the following: 1.
